

# Product Data Sheet

## AFR-10 ANTIFREEZE RESTORATION™

### General Information

- Designed to restore the protective qualities of antifreeze in the cooling system
- Formulated with high-quality corrosion reducers & inhibitors
- Contains additives to protect the system's metal surfaces

### Key Features & Benefits

- Saves time & money
- Prevents galvanic corrosion
- Dissolves rust, corrosion, scale & sludge
- Reduces downtime & maintenance
- Keeps cooling system operating efficiently
- Environmentally friendly

### Typical Applications

- All types of vehicles: Cars, light & heavy-duty trucks, commercial vehicles, fleets, etc.
- Recommended for both gasoline & diesel engines

### Directions for Use

For vehicles with 3 to 4 gallons of coolant in the system, add one 16-oz. bottle of AFR-10 directly to the radiator while engine is OFF & COOL. Do not add to overflow reserve. For vehicles with larger cooling systems, add 5 oz. of AFR-10 for every gallon of coolant in the system.

If you do not have direct access to the radiator (as is the case in some newer vehicles), add AFR-10 in the same manner the vehicle manufacture recommends you add coolant to the system.

**DANGER:** Never remove the radiator cap while the engine is hot or running. Doing so may result in serious injury from boiling fluid under pressure.

### Availability

- 16-oz. bottle
- 1 gallon container

### Typical Properties

Boiling point ..... 212°F  
Flash point ..... N/A

Specific gravity ..... 1.0  
Vapor density (air = 1) ..... N/A  
Vapor pressure (mm Hg) ..... N/A  
Evaporation rate ..... < 0.01  
Viscosity ..... N/A  
Odor ..... Mild almond  
Color ..... Clear to slightly hazy  
Appearance ..... Watery solution  
Solubility in Water ..... Soluble

### Material Safety Data

- **Ingestion:** Do not induce vomiting. Call a physician immediately.
- **Eye Contact:** Flush with water for 15 minutes. Call a physician if irritation persists.
- **Skin Contact:** Wash thoroughly with soap & water. Call a physician if irritation occurs.
- **Storage:** Do not store in temperatures above 130°F or below 32°F.
- For additional information, please refer to Material Safety Data Sheet (MSDS).

### Freight Classification

- **Classification:** Chemical, NOI, packaged in (container size), Item No. 043940, Sub 2, Class 85
- **Hazard Class:** Nonhazardous
- **Packing Group:** N/A
